

Act TODAY To Stop Aggressive Cell Tower Proliferation in California!

Two New Fast-Track Bills in California Threaten Neighborhoods -- Other States Will Follow

California state bills [AB 965](#) and [AB 1065](#) would fast track cell towers, 5G and wireless antenna sites near homes and schools.

These bills are being rammed through the California Legislature.

Action is needed TODAY as the vote on AB 965 could be **on Monday!**

- [AB 965](#) allows Telecoms to bundle 50 Cell Tower 5G and wireless “small” cell applications -- submitting them at the same time and imposing strict deadlines for local authorities to approve them. If localities don't approve in the allotted time, all Cell Towers will automatically be "deemed approved."
- [AB 1065](#) gives Wireless Companies access to taxpayer funds set up for faster, safer, more reliable, and more secure Fiber to truly close the Digital Divide. It's a sneaky bill - two little sentences inserted into existing law that will un-level the playing field, resulting in hundreds more Cell Towers in more neighborhoods. This means:
 - Huge increases in energy draw compared to Fiber
 - Lowered property values
 - increased fire risk

These bills will take away public hearings and sufficient time for local consideration of safety factors. The community will be cut out from the decision-making process!

Please use our fast-and-easy email automation tool below NOW to send an email now in OPPOSITION to these two bills. Thank you!

Please know: The norm is after California passes legislation, it gets rolled out to other states. So please forward this to all your contacts to spread the word to California residents.

HERE ARE TWO IMPORTANT WAYS TO TAKE ACTION

1. SEND AN EMAIL now to your California assembly member in opposition to the two bills. [Click here to quickly send a letter](#) to your assembly member.
2. SEND AN EMAIL to the legislative director of your state assembly member. Email only the legislative director of your member telling them you oppose these bills.
 - [Click here to find your assembly member.](#)
 - [Click here to find the email of the member's legislative director.](#)

If You Live in California- Contact your California Assembly Member Now!

Environmental Health Trust has [a webpage with more information on the two Bills here.](#)

REMINDER: Please take the time to email the Legislative Director of your California Assemblymember *in addition* to emailing the member through our letter writing tool. It will make the difference!
